Felipe Kreulich
Front-End Developer

Manifest

My name is Felipe, I am 21 years old, at the moment studying Analysis and Systems Development, I started studying programming when I was 15 years old with the Python language, however, over time, I started to focus on Front-End.

I worked as an IT Technician and in network maintenance at the 9th Army Police Battalion, where I was responsible for carrying out network and computer maintenance, and server maintenance, I worked for 2 years in the Battalion's IT Section.

I am a Front-End developer, I worked as a freelance developer and redid the entire structure and design of a musical instrument sales website

I work with Javascript, Typescript, NodeJS, Styled-Components among other languages and Frameworks.

Projects

I worked on these personal projects:

- **Moveit -** Study Platform that Uses Pomodoro Technique to Help Students
- **Devflix -** I recreated the entire Netflix Landing Page Using ReactJS and Consuming an API
- **Devfinance -** I created a Financial Control Platform Using HTML and Javascript
- **GithubFinder -** I created a website that consumes data from the Github API and displays it on a website Made in ReactJS, in addition I used React-Router to work with the Routes
- **GymProject -** I created a Landing Page for an Academy, using ReactJS and Other Lib's
- **Podcastr -** I created a Podcast Platform that Consumes Podcast's API and Displays it in a Platform Made in ReactJS and Other Lib's
